

OBIELUM GODSON

Personal Information

Phone

07016844530

E-mail

godsonobielum47@gmail.com

Date-Of-Birth

3rd November,1997

State Of Residence

Rivers State

Programming Skills

- Html5
- JavaScript
- CSS
- SASS
- Jquery
- Bootstrap
- Responsive Web Design
- GraphQL
- REST
- Webpack
- SQL
- React
- Version Control (Git)
- AJAX
- JSON and API's
- Node.js
- Express
- MongoDB
- Single page apps
- Mocha
- Babel

Soft Skills

- Develop creative solutions to problems
- Strong ability to analyze problems
- Public Speaking Experience
- Thrive in collaborative Environments
- Punctual with Time Management

Certifications

- POISE PSENSE Training
- A+ Hardware
- EC Council Certified Secure Computer User (CSCU)
- Graduate Member Computer Professionals of Nigeria (GMCPN)

Objective Statement

Individual with a strong foundation in logic and cross-platform coding. Seeking a position as a software developer where i may be able to use my skills to design and develop scalable and state-of-the-art software applications.

Work Experience

Freelance Software Developer

Feb 2016 -present

- Contributing to the community through various open source projects and writing technical articles.
- Perform application updates for clients within strict deadlines.
- Designing RESTful API's with node and express, storage of data with databases such as mongoDB and MySQL.
- The use of version control when working on client and side projects to enable a more controlled and fluid developement workflow.
- Evaluate code to ensure that it is valid, properly structured, meets industry standards and is compatible with browsers and mobile devices.
- TDD and BDD with the use of frameworks such as mocha.
- Maintain understanding of current web technologies and practices through participation in hackathons, conferences and meetups.
- Setup pipelines for continous integration and deployment after deploying client projects through PaaS providers e.g heroku, zeit, digital ocean.
- Building applications dependent of third party API's provided by various renowned platforms such as github,google,etc...
